

Genomic track showing gene models and associated features across a region of chromosome 9. Genes are represented by grey bars with labels above them. The labels include: BICD2, LOC642943, ANKRD19P, ZNF484, FGD3, C9orf89, SUSD3, NINJ1, WNK2, C9orf129, FAM120A, PHF2, MIR4291, BARX1, and PTPDC1. The gene FAM120AOS is highlighted in green text.
